General Assembly Budget Actions Will Impact Local Residents

As the *Hampton City Page* went to press on Monday, discussions were still taking place in terms of how much the General Assembly is willing to help fund local services.

At issue is whether our cities will thrive with a high quality of life and adequate education for our children, or struggle with fewer services, high property taxes, and little promise for our children's

future.

For the latest information about state budget discussions - and how you can stay involved - go to the city's web site at www.hampton.gov and click on "What's Hot."

There, you'll find the latest updates to this situation, and what you need to do to stay involved.
